Allowable Subject Matter

1. Claims 1-13 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 2, the applicants have presented a persuasive argument (page 7 of the applicants remarks) that the cited prior art of record fails to disclose a method of fabricating a diffractive optical element (DOE) comprises a step of forming the DOE from the etched ZnSe polycrystalline substrate. Since the closest cited prior art of Narui et al (US 5,475,237) discloses the step of etching the ZnSe monocrystalline layer to form a light emitting device, one skilled in the art would not have found it obvious to modify the ZnSe monocrystalline employed by Narui by employing a ZnSe polycrystalline substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
